Data Analysis Memo 5: First Regressions

Due 4/29

Submit 2-3 double-spaced pages on Blackboard.

Provide preliminary regression(s) showing the effect of your main independent variable on the dependent variable, controlling for the confounding factors you have identified. Make sure to interpret the coefficients in a way that someone unfamiliar with regression analysis can understand. If appropriate, visualize the regression results in a graph (e.g. with the help of the `predict()` command.
